

Cat Tales

Ana's New Life!

Ana is a young beautiful cat and a doting mother. She was found with three tiny kittens and a severely injured tail. We immediately rushed her to a veterinarian where they amputated the end of her tail. Unfortunately, it did not heal properly so more tissue had to be removed to allow for extra skin to cover the end of the bone. Ana was put on anti-anxiety medication to help stop her obsessing about her new tail. The second surgery healed well, but Ana began experiencing crippling phantom pains making her tear and bite at her tail causing extensive damage. Once again Ana was

rushed to the vet where the remaining tail was removed.

Today, Ana is a happy, loving and pain-free cat! We would like to thank Mission Veterinary Hospital, Hill n Dale Animal Hospital for their great emergency treatment and care of Ana and an especially big THANK YOU to Aldergrove Animal Hospital who performed one of the surgeries and let her stay there for several weeks while she recovered, weaned her kittens and got used to her new look.

All these procedures, medications and care were very costly. If you would like to contribute to these expenses, please contact us at 604-820-2977 or visit our website to contribute online. Help us continue to help cats like Ana. www.fraservalleyhumanesociety.com

Tips from a young veteran of kitten fostering!

When the humane society notified me about another batch of kittens that needed fostering I jumped at the chance! Having done this before, I knew that the first few months of a kitten's life are an important time for human interaction and socialization.

I was given a mother cat and her 3 kittens to care for. The kittens were already 3 months old with no prior human socialization. So they hid and would not let anyone near them.

They stayed in my room day and night and eventually the mother cat let me pet her. Within a few days the kittens were doing the same, although still a little jumpy. After a few weeks of working with them, they finally became comfortable around other people. Then I had to send them back to the humane society. That is always the hardest part for me.

Justin Federici

Happy Endings Page

Bugsy is a cuddly Teddy Bear who came into the care of the FVHS with a condition called entropion, where the eyelids turn inwards toward the eyes causing the hair to rub against the cornea. This condition is quite painful and can lead to ulceration and eventual loss

of the eye. So Bugsy was taken to Hill n Dale Animal Hospital where Dr Colleen Federici preformed cosmetic surgery to remove skin from around the eye. Today, his eyelids no longer curl inward and Bugsy has a new outlook on life! He is now hoping to see his new forever home, can you help?

Paprika, one of our shelter cats, was adopted into a loving home then went on to win the Abbotsford News' Cutest Pet Contest for the month of June! She really is a cutie!

Marlene

Summer adopted her new fur friend from the FVHS and decided to call him Blizzard.

She reports that he is settling in very nicely and is a very curious kitty. **Corrine S.**

My name is Ember (Freya), I am all settled now in my forever home and I love it. I have decided that Shannon is my person and I really like her. She lets me sit with her at the computer and is always willing to give me cuddles. I also have a good roommate (cat) named Oliver and we have become good friends.

Abby is a loving, friendly, naughty kitten. She loves attention and she loves to play. From the moment we saw her, my husband, brother in law, and I fell in love with her. She is now the youngest member of our family.

Occasionally Maggie lets us sleep on her king size bed. She has claimed the master bedroom as her kingdom. Her favourite activity is running laps around the living room in the evening.

Maggie is very demanding when SHE wants affection.... purring and bumping you with her head until she is satisfied. Maggie seems very comfortable in her new home and we are very happy to have her. **Rimma S.**

Shelter to Get Upgrade Thanks To Benjamin Moore!

Executive Director, Celia Durst and shelter volunteers Noah with his mom, Gaia received a cheque in the amount of \$2700 from the Benjamin Moore Community Restoration Program in June.

The money is a grant from Benjamin Moore in partnership with Community

Foundations of Canada and will help with upgrades to the shelter.

Volunteer Cleaners Needed!

Volunteer cat cage and shelter cleaners required in downtown Mission. Shift is 8 a.m. to approx. 10:00 a.m. Job requires frequent bending, lifting, sweeping and mopping. Duties also include scrubbing litter pans etc., assisting with laundry and dishes and other duties as required. Must be punctual, reliable, able to understand and follow directions. Most days of the week available.

Interested? Please call

What We Do For The Community

We provide a temporary home and veterinary care for stray or abandoned cats. All cats in our care are viral tested, spayed/neutered, vaccinated, dewormed, de-fleaed and tattooed prior to adoption. Our cats are well socialized at our center before placement in a forever, caring home.

We also assist in public awareness of animal welfare and spay/neuter promotion. We provide community support through our in-house programs.

Every penny counts!! Donate them to us!

Take your drink containers to **Changes** in the Junction mall or **Mission Bottle Depot** on Park Street (Behind Esso).

Let them know you are donating them to the FVHS.

CENTER HOURS:

SUN-MON - CLOSED

TUE-WED-THU-SAT - 10:00 am - 3:00 pm

FRI - BY PREARRANGEMENT ONLY

Tax Receipts are given for donations over \$20
